**Why am I completing the Individual Legacy Mission Statement?**

Your Individual Legacy Mission Statement will serve as your personal roadmap for maximizing your positive impact on your family and others outside your family. It is an articulation of your ideal life and what you want to become. It can also be the picture you see in your mind's eye when you think about what matters most.

**What is the Individual Legacy Mission Statement?**

Articulating the positive impact you seek to impart as an individual is a critical step to writing a Family Legacy Mission Statement. To make your life journey meaningful we suggest crafting an Individual Legacy Mission Statement as your initial step to “knowing where you are going”.

**How is the Individual Legacy Mission Statement completed?**

This deliverable is structured like the age-old game “Mad Libs”. Each question will provide a specific form of word (noun, verb, adjective, etc) for your completion. 23 questions will be asked of you and your responses will be recorded. Once recorded, the MTM360 technology will organize your answers into a draft mission statement.
